Nature's Predators - Polar Bears: Eleanor J. Hall ... Report writers won't get the "whole story" in these Nature's Predators volumes, but they'll still come away much more informed. Each volume in this new series is a well-written, well-organized, thorough look at how a creature hunts, catches, and devours its food, which, as it happens, encompasses a lot of natural-history territory. Nature's Predators - Eagles: Hayley Mitchell Haugen ... Part of the Nature's Predators series from KidHaven Press, Eagles explores the fascinating world of these powerful raptors. Readers learn about the various groups of eagles and what physical attributes help make each group skillful hunters in the wild. 9 Predators With The Most Brutal Hunting Techniques - io9 Interestingly, only 10% of predator-prey relationships result in a smaller animal eating a bigger one, but they are all active attacks â€” not a small creature luring its prey.
